

ALANOG-7 Meeting Workshop Presenters

Speaker Bios:

Eddy Winstead

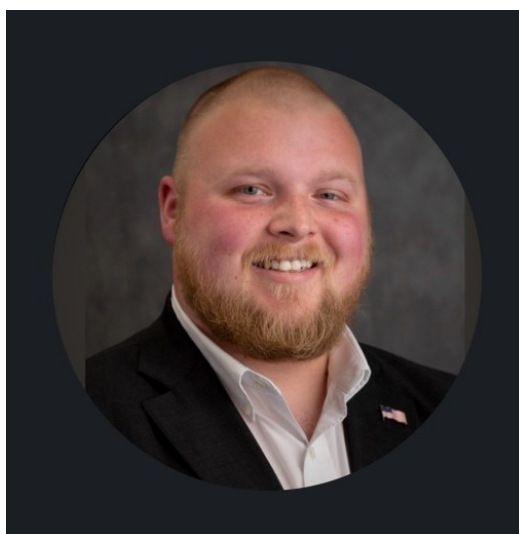

Senior Systems Engineer – Internet Systems Consortium(ISC)

Eddy has over 30 years experience in UNIX/DNS/DHCP systems and network engineering. In 1996, he joined the North Carolina Research and Education Network (NCREN, formerly CONCERT), primarily focusing on integrating and maintaining BIND and INN for the state of North Carolina's higher education community. In 2008, Eddy was a lead member of the team that transitioned all 115 of North Carolina's K12 school districts to NCREN, creating a K20 network in the state. His focus in this effort was DNS transition planning and coordination. Eddy also served as NCREN's Designated Member Representative to ARIN. Eddy joined ISC in 2011 providing BIND & DHCP consulting, configuration audits and troubleshooting assistance for ISC customers. Eddy is also one of the instructors of ISC's world class technical trainings, primarily teaching the DNS & BIND course.

Bradley Speer

Data Center Analyst, Public Sector – NTT Data

Bradley's career started in 2015 when I graduated from High School and started working for the Retirement Systems of Alabama in their commercial building operations department. This

provided me with almost 4 years of commercial building and critical facilities operations experience. In 2020 I was able to leverage my experience with RSA into a new role with NTT Data that entered me into one of the fastest growing industries in the world. In 2022 I decided to go back to school and finish my Bachelor of Science in marketing from the University of Alabama at Birmingham so that I could better position myself into the business side of data center and IT services. In 2025 I completed my degree and now have the opportunity to use my experience to help educate and sell IT services.

Jason Maki

Director of Technical Business Development - Rocnet Supply

Jason spent 9 years as a Network Engineer for a Midwest regional ISP, developing & deploying network architectures for middle mile, cellular backhaul, SMB, and Enterprise Solutions, and led Innovation Initiatives to identify next-gen services and technologies. He also has experience as a Sr Solutions Architect focused on building End to End Architecture solutions for a wide range of Service Providers.

Andrew Albrecht

Co-Founder/CEO - AUBIX

Andrew has over 25 years of experience in the technology industry prior to becoming Co-Founder and CEO of the AUBix Data Center in 2021. His experience includes analyzing, operating, and growing IT services, cloud services, data center and software companies while at Tier 1 companies like Cyxtera (Centersquare) and Internap Network Services.
